

## Toolmaker/CNC Machinist

### Join Our Award-Winning Team – Toolmaker/CNC Machinist at DefendTex

As the proud winner of the 2023 and 2024 *Defence Innovator of the Year* awards, DefendTex is driven by our core values of integrity, innovation, professionalism, and passion. These principles guide everything we do as we push the boundaries of defence technology.

Our mission is clear: to be a world leader in defence innovation by developing cutting-edge technologies that support military and law enforcement communities around the globe.

In this exciting period of growth, we're expanding our multi-disciplinary team to support a diverse range of innovative defence projects. We are currently looking for a highly skilled **Toolmaker/CNC Machinist** to join us and contribute to the future of defence technology.

### About the Role

As a **Toolmaker/CNC Machinist** at DefendTex, you will play a vital role in supporting our Engineering team to develop state-of-the-art products and systems for tomorrow's defence needs. You will be immersed in an environment where collaboration, creativity, and technical expertise drive every project.

### What We're Looking For

You will bring expertise and experience in:

- Extensive CNC machining
- Programming, setting, and running CNC mills and lathes (experience with 5-axis multi-tasking machines is highly desirable)
- CAD/CAM programming (NX experience is highly desirable)
- Selection and application of tooling
- Metrology of machined components
- Manual machining practices

### Essential Skills & Qualifications:

- Trade Qualified Fitter and Turner / CNC Machinist
- Ability to read and interpret engineering drawings
- Strong understanding of Fanuc/ISO G Code
- Ability to satisfy Baseline Security Clearance (must have Australian citizenship)

### Desirable Skills:

- Forklift licence
- Welding experience (MIG, TIG, Arc)

### Who You Are

You're a dedicated team player who thrives in a collaborative, mixed-discipline environment. Your work will be crucial in ensuring our products integrate seamlessly and function flawlessly, every time. We're looking for someone who is:

- A strong communicator
- A self-starter who works independently
- A problem solver with a passion for safe working practices
- High attention to detail who takes pride in the quality of their work

### **Why DefendTex?**

At DefendTex, we offer a dynamic, engaging workplace with opportunities to work on exciting projects and industry-leading innovations. We prioritise your professional growth with ongoing learning and development opportunities.

In addition, we offer:

- Competitive remuneration
- The chance to work on cutting-edge defence technologies
- A commitment to diversity, inclusion, and equality throughout the organisation
- A supportive work environment that prioritises mental health and wellbeing

We actively welcome applicants from all backgrounds, including Veteran, Aboriginal and Torres Strait Islander peoples, veterans, and encourage diversity in our workforce.

### **Interested?**

If this sounds like you, are you're interested in applying for this exciting role, please apply to [careers@defendtex.com](mailto:careers@defendtex.com) and include your CV and cover letter.
